Special Stick

With a little imagination, a simple stick can become just about anything you need it to be and can open a portal into imaginary worlds where you can play for hours!

1. Find a special stick in your back yard or nearby open space. (To keep everyone safe, we recommend that sticks not be thicker than your arm or longer than both of your arms spread out wide.)
2. What could this stick transform into?
 - A magic wand?
 - A tool such as hammer, paint brush, stirring spoon, or bow and arrow?
 - Could it open a portal to another dimension?
 - Does it need decorations like paint, ribbons, or beads in order to function properly?

Go ahead and use the stick as the thing you want it to be. Just be mindful of the people around you!
