

Outside Activity

Created by: Thorne Nature Experience

Ice Ornament

AGES: Fun for all ages

SUPPLIES:

- Freezer safe dish- cake pan, pie plate, plate
- Natural bits and pieces- anything that you can find outdoors in the winter
- String
- Water

1. Gather natural bits and pieces in a variety of colors- sticks, leaves, acorns, berries, seeds, anything that is hanging around in the winter. Enjoy the discoveries that you find in the gathering process (we found a snake skin while searching.)
2. Fill a freezer safe dish with 1-2 inches of water.
3. Arrange your natural pieces in the dish. Don't spend too much time on this because they will move around.
4. Tie your string into a loop and place part of it deep in the water.
5. Place outside overnight to freeze. This could take a while, feel free to use your freezer for this step.
6. Hang and enjoy your temporary outdoor décor!
